

## Innovation Projects Dec 2014

Reference	Applicant/Grant holder	Title	Final score	Rank
NE/M021300/1	Dr Susannah Thorpe	An Enclosure Design Tool to enable zoos to create integrated, wild-type enclosures for great apes	10	1
NE/M021599/1	Dr Ilya Mark Daniel Maclean	Mitigating present and future climate risks to winemaking	9.5	2
NE/M021939/1	Mr Daniel Lapworth	TryGGER:Application of tryptophan Florescence Sensors for improved raw water quality monitoring of Faecal Contamination in Groundwater sources	9.5	3
NE/M021319/1	Professor Andrew White	Mathematical Modelling Tools for Conservation and Disease Management	9	4
NE/M021971/1	Professor Ranjeet Sokhi	High Resolution Forecasting of Air Quality and Exposure for Healthier Cities (HiRAE)	8.5	5
NE/M021564/1	Dr Luciana Slomp Esteves	X-band radar applications for coastal monitoring to support improved management of coastal erosion	8.25	6
NE/M021653/1	Dr Paul Bell	X-band radar applications for coastal monitoring to support improved management of coastal erosion	8.25	6
NE/M021505/1	Professor Piran White	Linking evidence and operation in ecosystem service-based decision support tools	8.25	7
NE/M021483/1	Professor Bridget Emmett	Linking evidence and operation in ecosystem service-based decision support tools	8.25	7
NE/M021777/1	Dr Andrew Howard	Tellus How - An exemplar approach for end-user innovation and follow up of major NERC environmental survey projects	8	8
NE/M021378/1	Professor Laurence Nelson	Towards successfully realising the impact of the chip-based phospholipid on mercury (Hg) device as a toxicity sensing system	8	9
NE/M021459/1	Professor Matthew Bennett	Integrated software solution for the 3-dimensional capture and analysis of footwear evidence	7.5	10
NE/M021882/1	Dr Fiona Mathews	Evaluating the impacts of wind turbines on bat populations	7.5	11
