

Biosphere Evolution, Transactions and Resilience (BETR) - July 2016

Rank	Research Excellence	Fit to Scheme - Scientific	Fit to Scheme - non Scientific	Grant Reference	Lead/Sole Grant	Grant Holder	Research Organisation	Project Title
1	9	5	6	NE/P013805/1	Y	Paul Valdes	University of Bristol	The evolution of vegetation and biodiversity change during the Paleogene and early Neogene
2	8	6	6	NE/P013724/1	Y	Paul Wignall	University of Leeds	Ecosystem resilience and recovery from the Permo-Triassic crisis
2	8	6	6	NE/P013759/1	N	Daniel Condon	NERC British Geological Survey	Ecosystem resilience and recovery from the Permo-Triassic crisis
3	8	6	6	NE/P013627/1	N	Simon Poulton	University of Leeds	Perturbation of the Earth system at the Proterozoic-Phanerozoic transition and the resilience of the biosphere
3	8	6	6	NE/P013643/1	Y	Graham Shields-Zhou	University College London	Perturbation of the Earth System at the Proterozoic-Phanerozoic transition and the resilience of the biosphere
3	8	6	6	NE/P013651/1	N	Timothy Lenton	University of Exeter	Perturbation of the Earth System at the Proterozoic-Phanerozoic transition and the resilience of the biosphere
3	8	6	6	NE/P013678/1	N	Philip Donoghue	University of Bristol	Perturbation of the Earth System at the Proterozoic-Phanerozoic transition and the resilience of the biosphere
3	8	6	6	NE/P013775/1	N	Daniel Condon	NERC British Geological Survey	Perturbation of the Earth System at the Proterozoic-Phanerozoic transition and the resilience of the biosphere
