

Innovation Follow-On: Enabling innovation in the UK and developing countries 2017 - International Assessment Panel Outcomes

Grant Reference	Principal Investigator	Research Organisation	Project Title	Rank	Decision
NE/R009619/1	Professor Jim Smith	University of Portsmouth	INTERNATIONAL: iCLEAR - Innovating the Chernobyl Landscape: Environmental Assessment for Rehabilitation and Management	1	Funded
NE/R009309/1	Professor William Blake	University of Plymouth	"International". Jali Ardhi [Care for the Land] project: Realising land management change in degraded Maasai grazing lands.	2	Funded
NE/R009465/1	Dr Evgenia Ilyinskaya	University of Leeds	International innovation follow-on for GCRF project UNRESP: Integration of air quality monitoring in Nicaragua's national hazard monitoring system	3	Funded
NE/R009406/1	Dr Jason Holt	National Oceanography Centre	Coastal Resilience to flooding impact through relocatable Storm surge forecasting Capability for developing nations (C-RISC)	4	Funded
NE/R009325/1	Dr Julian Thompson	University College London	International - Translation of Environmental Flow Research in Cambodia (TEFRIC)	5	Funded
NE/R007675/1	Professor David Johnson	Bangor University	In situ pilot-scale demonstration of a novel mineral processing biotechnology for recovering metals from lateritic ores (International)	6	Funded
NE/R009139/1	Dr Emily Black	University of Reading	International: TAMSAT-Agricultural Early warning system (TAMSAT-ALERT) platform	7	Funded
NE/R009481/1	Professor Andrew Russell	Newcastle University	Real-time low-cost monitoring for hydro-geomorphological risk reduction in Chile	8	Funded
NE/R009392/1	Dr Ruben Sakrabani	Cranfield University	Implementing innovative technology to tackle barriers in utilising human waste derived fertilisers in Sub Saharan African agriculture	9	Funded
NE/R009597/1	Dr Jenny Hodgson	University of Liverpool	International: Decision support for restoring ecological networks in rapidly developing, biodiverse countries	10	Funded
NE/R009589/1	Dr Keith Nicholls	NERC British Antarctic Survey	International: Use of phase-sensitive radar to monitor discharge and recharge of Moroccan aquifers	11	Funded
NE/R009376/1	Professor Nora De Leeuw	Cardiff University	International Innovation Project on the Computer-aided High Throughput Development and Upscaling of Tailored Zeolites as Waste Water Filters in Ghana	12	Funded
