

RESEARCH ORGANISATION DEPARTMENTAL SUCCESS RATES 2011/12

The following success rates are based upon the total number of applications submitted by individual departments and are based on decisions made during financial year 2011/12 ie the applications may have been submitted in the previous financial year. Proposals to all responsive and knowledge exchange schemes are included as well as research grant applications to research programmes. Research Fellowships are not included. The data includes joint proposals - ie each distinct element of a proposal is attributed to the appropriate institution and department. These data do not differentiate between applications submitted jointly by different departments/schools within the same Research Organisation. All applications are shown as being submitted by one department in the Research Organisation (ie the department submitting the application to NERC via the JeS system).

Please note that data included for International Research Organisations relates to a specific Research Programme scheme where normal eligibility rules are waived to reflect those of the joint funding body.

Research Organisation	Grant Department Name	Number Of Applications	Number Funded	% Success By Number	Amount Applied For	Amount Awarded	% Success By Value
Aberystwyth University	IBERS	7	0	0	£1,494,441	£0	0
