

## RESEARCH ORGANISATION DEPARTMENTAL SUCCESS RATES 2016/17

This data is associated with proposals submitted to NERC Discovery Science, Strategic Research and Innovation schemes. Research Fellowships, National Capability and Training Grant schemes are not included. This data relates to decisions made during 2016/17. The proposals themselves may have been submitted in the previous financial year and announcements may have been issued in the following financial year. The data includes joint proposals, i.e. where multiple grants are awarded to different organisations for the same research project. The data does not differentiate between proposals submitted jointly by different departments/schools within the same research organisation or where there are co-investigators from a different organisation.

Please note that data included for International Research Organisations relates to a specific Strategic Research scheme where normal eligibility rules are waived to reflect those of the joint funding body.
