Cruise Paperwork:

This will all be collected and co-ordinated through Julia at PML. In order to simplify everything we will co-ordinate all the paperwork at PML for each cruise and then produce a data product with all the details on it and then distribute this.

Each cruise will be dealt with separately so once we know who is going to sea then we will email everyone to start the process of information gathering. Each cruise will have a date by which all information must be with us. This is the date agreed with NMF cruise planning and is by when they need the information.

Please think ahead and plan getting medicals and sea survival courses booked up.

Cruise Schedule:

All mob and demob ports are Southampton.

DY008: Benthic 1: PSO Henry Ruhl

Cruise dates are: 18 March to 7 April 2014: Feb 1st
