**Resource Recovery from Waste Research Programme
Agenda for Research Grant Kick-off Meeting
24 July, 2014 | etc.venues Paddington
57 North Wharf Road, London W2 1LA**

<http://www.etcvenues.co.uk/files/download/etcvenuespaddingtonpdf/89>

Meeting aims

The aim of this meeting is to bring together the Research Grant projects recently funded under the Resource Recovery from Waste programme in order to discuss how we will ensure that the programme goals are delivered.

The meeting will provide an opportunity for the projects to learn more about NERC, ESRC and Defra's aspirations for the programme and the expectations for programme-wide coordination and Knowledge Exchange. A small portion of the programme budget has been set aside to help facilitate these activities, and the agenda includes time for the project teams to start discussing how best to use this funding.

There will also be an opportunity for the project teams to learn more about the requirements for data management, both at the programme and individual project level, and the support that the Environmental Information Data Centre (EIDC) can provide.

Agenda

09.30	Tea/coffee	
10.00	Welcome	Ruth Kelman, NERC
10.05	Overview of the programme	Jim Wharfe, SAG and PEB
